STEER-TECH *Fluid Service*

SSM203

QUICK, clean fluid exchange
in approximately 15 minutes.

*The **STEER-TECH Fluid Service** removes old power steering fluid while simultaneously installing new fluid. This helps replace contaminated fluid, remove abrasive wear metals and debris, and protect valves, seals, and the power steering pump during service.*

- ✓ Fully pneumatic design & durable valves provide long life
- ✓ Pneumatic vacuum generator provides excellent suction, no pump failures
- ✓ Flow control manifold provides precise fluid level
- ✓ Complete fluid exchange in 10 minutes or less
- ✓ Clear 3 qt. tanks for easy monitoring
- ✓ Adjustable flow speeds for quick service
- ✓ Separate controls for new and waste fluids
- ✓ Low-fluid valve provides soft, end of new fluid service
- ✓ Durable, well-balanced cart with easy-roll casters
- ✓ Durable black anodized panel with laser-etched notes
